CHAMPION WELL REPRESENTED AT STAVELEY SPORTS

Champion presented a deserted appearance on Tuesday when holiday makers departed for various points to celebrate Victoria day.

The majority of the citizens spent the day in Staveley where they were fortunate in seeing the local ball team make an impressive debut, when they defeated Turner Valley 14-1 in the afternoon fixture and Staveley 5-3 in the evening game. Robinson and Walker handled the mound for the locals and turned in a good performance. The infield and outfield alike worked smoothly and turned out airtight ball.

The horse races presented plenty of excitement and proved doubly interesting for Champion fans when horses owned by W. Sanford of Champion captured the majority of the prizes.

Other entertainment, including a dance at night, provided merriment for one day.

Those who did not journey to Staveley participated in the Victoria celebration, while others took advantage of the fishing at Lake MacGregor.

The first league game of the season will be played on the Champion diamond on Saturday May 28, when Champion will meet Staveley.

NEW RECRUIT PLEASES FANS

Robert Fath, the newest addition to the Champion ball team stepped right up to plate Tuesday and in the field looks mighty good to the fans and the ball executive.

"Robert" will certainly be a valuable addition to Champion's line-up. His showing at the bat and in the field looks mighty good to the fans and the ball executive.

FUNERAL OF MRS. ELLAN GILL

Private funeral services for the late Mrs. Ellen Gill were held last Thursday afternoon from her home, being conducted by the Rev. Canon T. B. Winter.

The late Mrs. Gill, who was a well known and an esteemed citizen, died quite suddenly on May 18, in her 84th year. She had long been suffering from her heart, and she died a few minutes later.

She was born in Norborough, England, coming to Canada with her family in 1913 and finally settled here 24 years ago. She is survived by two daughters, Mrs. H. Stagg of Edmonton, and Mrs. Fred Lovegrove of Lethbridge, and her sons Horace and Bert, several grandchildren and a wide circle of friends.

While most of the Champion people were hurrying hither and yon, on Tuesday morning, preparing to accompany the ball team to Staveley, a momentary achievement was being perpetrated, in a very modest manner on our local golf course. Miss Ellen McCullough realized the dream of every golf enthusiast -- that of making a "hole in one".

This amazing feat took place at the third green. Although there is still a certain amount of obscurity concerning the way in which it came about, there is no doubt that Miss McCullough is now eligible as a member of the "Hole-in-one" Club.

We understand that Ellen was using an interlocking grip, a steel-shaft driver, and a Dunlop ball. At present the ball is preserved in a glass case and, in spite of many requests, will not be placed on display.

This event is especially worthy of congratulation as it was the first "hole-in-one" on the new Champion Golf Course. Undoubtedly some of our golf veterans, such as Jack McIntyre, R. D. Farries, and George Davy, will be calling around for a few hints on technique.

A number of farmers who have groves of trees, as a protection for young pheasants, have received settings of pheasant eggs which they have placed under hens for hatching.

Every care is been taken in handling the eggs and the local enthusiasts are eagerly awaiting the outcome of their new venture. Those who have received the settings of eggs are: Cool Bros., O. Sommers, Guy Voisey, Fred Blackley, Bill Ulrich, Harold Matlock, O. V. Smith, A. Ruggles and Ed. Carlson.

Percy (Pete) Watson, well known former resident, died in Springfield, Ill., on April 23rd, following a brief illness, according to a message received here last week.

Mr. Watson resided here for a number of years, at one time being associated with N. M. St. Peter in the hardware business and later acting town clerk. He was a veteran of the great war, having enlisted from Champion. His many friends in town and district sincerely regret to hear of his untimely passing.

He leaves to mourn his loss his wife, Gladys Watson, and two sons, all of whom are well known here.

Turner Valley Prices
Must Be Kept Near
Montana Levels

Oil product consumers know the developments in the Turner Valley have resulted in lower prices for gasoline and distillates in Alberta, Saskatchewan and even in a large part of Manitoba.

This happened because producers, pipe lines, railroads and refineries got together and made Canadian oil available over the whole prairie area. To do this former source of supply were displaced. Thus Montana crude oil was forced out of the picture.

To the lay observer it might seem that the lower the price goes in Turner Valley, the better for the consumer. This would not be the case. The price of crude oil must be enough to give the producer a return on his money so that he can search for more oil. The wells now flowing decline with fair rapidity. If new wells are not brought in, sooner or later there would be a scarcity of supply in Turner Valley. No comment or advice is needed to inform the public what happens to the price of a commodity when it gets scarce.

Thus it is in the consumer's interest that the producer get a fair price for his product. Only by this means will he be able to drill more wells to maintain an adequate supply and thus keep the cost to the consumer down to the reasonable level.

WHO OWNS
CANADA'S BANKS?

Who are the owners and
what do they do?

★ ★

JIM BROWN, carpenter—your next-door neighbor—may be one of the supposed "Big Shots" who own the banks in Canada. He may own a couple of shares, or maybe only one.

Women, executors or trustees of estates, and retired people, comprise about 63 per cent. of the shareholders in one of Canada's banks, taken as an example.

Analysis of this particular bank, which may be regarded as typical, shows that women own nearly half of its shares. Farmers, merchants and professional men are the most numerous of the classes listed.

There are 260 occupations represented among the shareholders. They include:

Accountants, actors, barbers, bankers, bee-keepers, boat-builders, bricklayers, carpenters, chemists, clerks, dentists, doctors, drivers, druggists, farmers, fishermen, forest rangers, funeral directors, grocers, insurance agents, jailers, journalists, linotypists, lobster buyers, miners, oil operators, plumbers, policemen, railway employees, ranchers, sailors, scalars, sheriffs, stenographers, stevedores, timber cruisers, tobacconists, farmers, trappers, and others.

These are among the folks who own the banks and so must be a part of that hodgepodge with which some people seek to scare you—that failed "international bankers' ring". They are mostly Canadians—your fellow-citizens—decent people like yourselves. 50,185 people hold the 1,445,000 chartered bank shares issued. Seventy out of every hundred shares are owned in Canada.

The average share-holding is 28.8 shares—but all through the lists of bank shareholders you will find hundreds who own from one to five shares.

There is no concentration of ownership and power in the hands of any small group. These shareholders annually elect directors. There are 172 directors of Canada's chartered banks. Their addresses dot the map of Canada from coast to coast.

They are men of proven business ability; their own success has proved their judgment good; that judgment is always alert in safeguarding your money.

Their business experience reinforces the skill and training of the salaried bank executives in conserving the interests of the

depositors, note-holders and shareholders.

Loans to bank directors, firms in which they are partners and loans for which they are guarantors, as of February 28th, 1938, did not exceed 1/100th part of the total loans made by the chartered banks. That is about the usual proportion. Monthly returns have to be made to the Government showing these amounts.

No director may vote, or even be present at a meeting of the board when loans in which he has any interest are under discussion.

The law prevents a bank from doing certain things. A bank is prohibited from lending on mortgages, for loans must be of short term and quickly realizable.

A bank is forbidden to engage in trade. It must not buy, or lend against its own shares or the shares of any other chartered bank. No bank, bank employee, or bank director is allowed to hold shares in the Bank of Canada.

A bank must not let its name appear on certain prospectuses, nor may any of its staff represent insurance companies.

There are heavy penalties laid down for violation of any of these and other provisions of The Bank Act.

Your bank provides machinery for carrying out adequately the most widely varying, day-to-day transactions—financing farmer or factory, merchant or miner; simplifying business, facilitating the exchange of goods and services.

Canada's chartered banks are owned by your fellow-citizens, directed by men known as competent leaders of business and managed by able men risen from the ranks whose whole business life and experience has been in the bank.

They are at your service.

How Do
"Little Savings"
Finance
Mortgage Loans?

Answer.—Every mortgage loan made by a Life Insurance company is made up of the savings of several policyholders.

Question.—What do these savings represent?

Answer.—They represent the money which thrifty men and women have invested in Life Insurance for the protection of themselves and their dependants.

Q.—What is the average policyholder's share in Life Insurance assets?

A.—Approximately \$571.

Q.—Then it would require most of the accumulated savings of six policyholders to make a mortgage loan of \$3,000?

A.—That is a fact.

Q.—How much Life Insurance money is invested in mortgages?

A.—More than \$382,000,000, in first mortgages on farm, town and city properties in Canada.

Q.—In whose interests are these investments made?

A.—In the interests of more than 3,500,000 Canadian policyholders, most of whom are in modest financial circumstances.

This is the seventh of a series of messages sponsored by Life Insurance Companies operating in Canada. The rights to appear in two weeks' time, will deal with Life Insurance as Canada's greatest co-operative business.
